

Scientific Operations Manager

The Westmead Millennium Institute is one of Australia's leading medical research institutes, located on the Westmead health and research campus in Sydney.

The Scientific Operations Manager is responsible for the development and day to day operation of high quality biomedical research facilities and scientific services for the institute including core technology facilities in genomics, bioinformatics, imaging, protein production and transgenics. The position leads the operations team, manages key relationships with internal and external stakeholders and will contribute to planning for a new research facility.

The successful applicant will have a strong track record of achievement in the management of a medium to large medical research facility, knowledge of laboratory best practice, research technologies and trends, strong leadership and people/team and project management skills and the proven ability to deliver high quality facilities and services to meet the needs of a complex and rapidly growing organisation.

For an application kit and position description please call 02 9845 9021 or email lloyd.smith@wmi.usyd.edu.au.

Applications, including curriculum vitae, to Human Resources, PO Box 412, Westmead NSW 2145 or above email address by COB 14th December 2007.
